SUBJECT: Law Enforcement Analysis & Surveys

On January 26, 2010, the Town Council voted and gave direction to the Town Manager to complete a 5-step process to evaluate our current law enforcement service level and to do some additional analysis into the formation of an Indian Trail Police Department.

Town staff has been working on these requests from the Town Council. Town staff would like to update the Mayor and Town Council on the progress on these issues, and to ask for further direction, and may requests to have some further guidance on this project. This agenda item would have been presented on the July 27th meeting, which was subsequently not held.
