

Q1 Do you feel it's a safer intersection to navigate thru than the previous one?

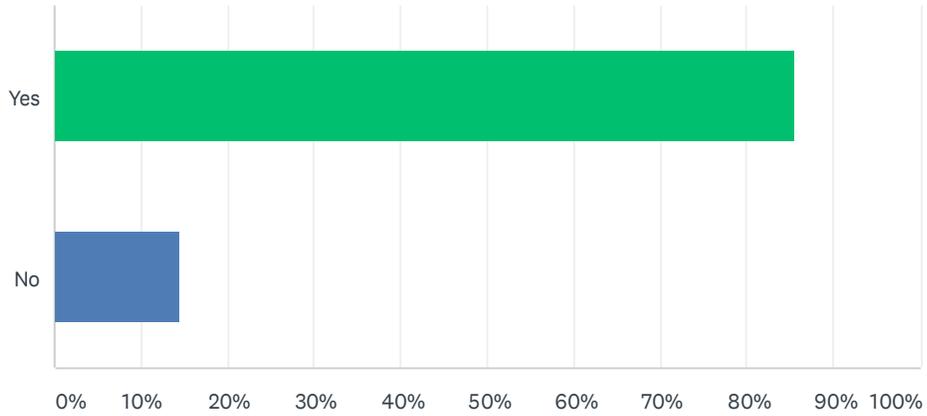

Answered: 441 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	87.53%	386
No	12.47%	55
TOTAL		441

Q2 Has the roundabout improved your travel time/daily commute when using the intersection?

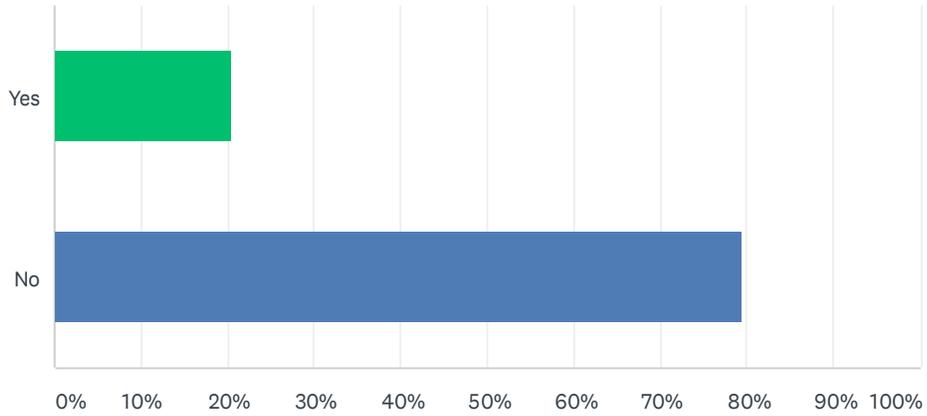

Answered: 441 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	85.49%	377
No	14.51%	64
TOTAL		441

Q3 Based on your answers to the previous two questions, would you be opposed to seeing more roundabouts in Town, if warranted?

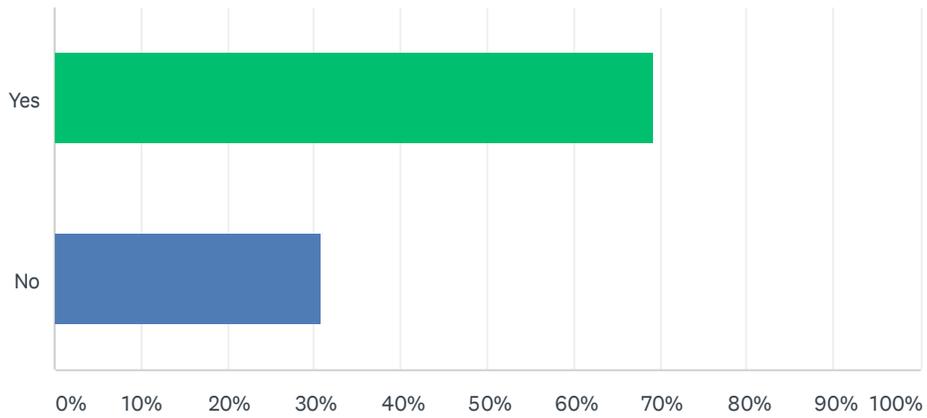

Answered: 441 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	20.41%	90
No	79.59%	351
TOTAL		441

Q4 Has the roundabout improved pedestrian accessibility and safety at the intersection?

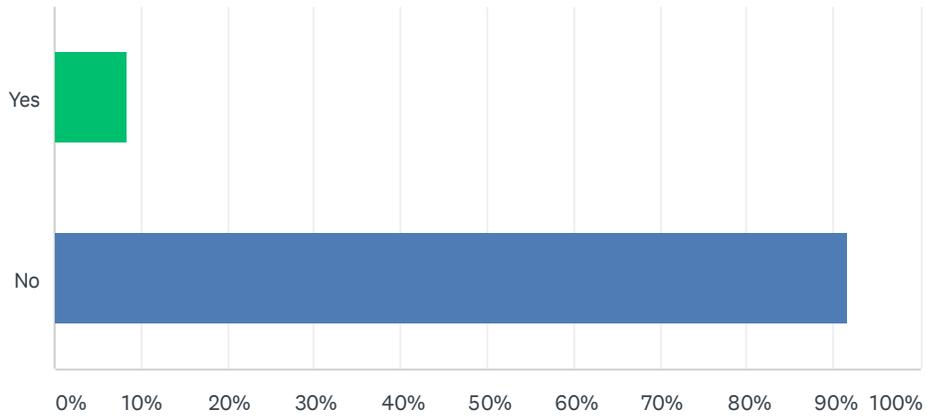

Answered: 441 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	69.16%	305
No	30.84%	136
TOTAL		441

Q5 Do you have a child(ren) who attends Sardis Elementary School?

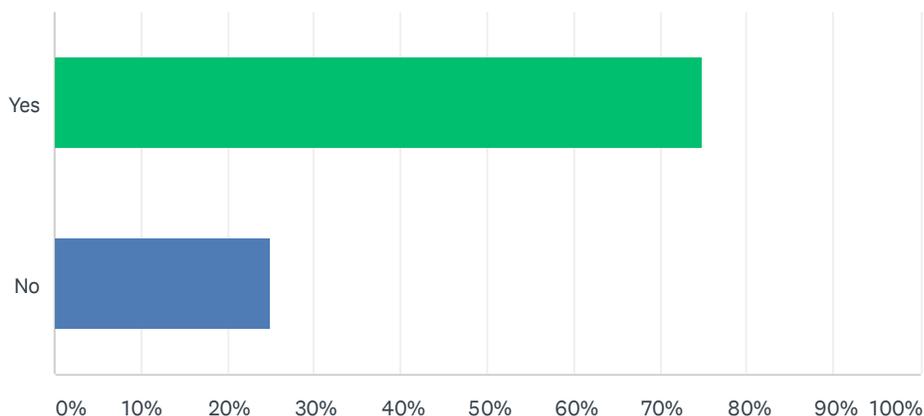

Answered: 441 Skipped: 0

ANSWER CHOICES	RESPONSES
Yes	8.39% 37
No	91.61% 404
TOTAL	441

Q6 Do you think the improvements to the intersection and school access driveways have improved student drop-off and pick-up during school hours?

Answered: 36 Skipped: 405

ANSWER CHOICES	RESPONSES
Yes	75.00% 27
No	25.00% 9
TOTAL	36

#	PLEASE EXPLAIN WHY YOU CHOSE YOUR ANSWER.	DATE
1	Cars do not yield!	4/16/2021 7:07 PM
2	This traffice circle is perfect for the demands of this intersection and it's so much safer	4/15/2021 11:48 AM
3	Takes longer to get into and out of the school	4/8/2021 12:16 PM
4	The drop-off/pick-up point at the school hasn't changed, so it's not any better or worse than before.	4/8/2021 10:35 AM
5	The roundabout has made the traffic move faster and it is much safer when used properly. However, my biggest concern is drivers who do not yield to those already in the roundabout.	4/6/2021 2:20 PM
6	Quick to get home and to school	4/5/2021 10:29 PM
7	Faster flow at intersection due to no stopping of traffic, but the lack of responsible use/driving by residents will lead to deaths. Fast and correct are not always the same.	4/2/2021 3:15 PM
8	Seems faster	4/1/2021 8:20 PM
9	Time saver	4/1/2021 4:15 PM
10	Everyday there is at least one idiot who has no idea how to use a round about but it's better than the 10 idiots before trying to pull out in front of people	4/1/2021 12:46 PM
11	Since we do not have full attendance yet, we are not feeling the full effect of dismissal. It already backs up in the school parking lot with parents waiting to enter the circle. When we bring back full school attendance and stop temp checks (which slow traffic flow), we'll see more backup in the school lot.	4/1/2021 8:52 AM
12	Lines are shorter getting in and out of the school	4/1/2021 6:15 AM
13	It's more safe to leave the school then it was before.	3/31/2021 3:42 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

14	Traffic is always moving and no traffic guard needs to stop traffic	3/31/2021 1:38 PM
15	I just feel the intersection has improved 100%	3/31/2021 1:38 PM
16	Crossing guard doesn't have to hold car riders or other drivers in phases. Smooth and easy exit from school	3/31/2021 1:34 PM

Q7 Please provide any additional feedback or comments.

#	RESPONSES	DATE
1	I love the round about. One would be great near Enda Love park.	4/18/2021 8:54 PM
2	I love the new roundabout, it has made the intersection much safer! Thank you!	4/18/2021 12:05 PM
3	Not everyone knows that as you come up to the roundabout you need to yield to cars already in the roundabout. Some people coming up to the roundabout think it is a race to see if they can beat someone already in the roundabout to the exit.	4/18/2021 11:37 AM
4	It's fantastic! So happy with the results	4/18/2021 10:49 AM
5	Other drivers should stay off their phones and pay more attention.	4/17/2021 2:15 PM
6	N/A	4/17/2021 10:02 AM
7	I don't have a good answer to #4 as I have not seen any pedestrians at the roundabout.	4/17/2021 7:51 AM
8	I love it. I am so glad it was built. It has cut down time on my commute. I welcome roundabouts anywhere in the town.	4/16/2021 8:10 PM
9	Awesome. Huge improvement for traveling that intersection from all sides.	4/16/2021 7:54 PM
10	NA	4/16/2021 7:16 PM
11	Cars do not yield there is a need of stops or something else	4/16/2021 7:07 PM
12	Why is it closing?	4/16/2021 6:26 PM
13	It is a vast improvement to the old intersection but I would rather see the overall road situation improved	4/16/2021 5:30 PM
14	Traffic flow at hwy 74 thru Indian Trail to Monroe Road is a major mess ! Why is there not another road 4 lane to by pass down town !	4/16/2021 4:05 PM
15	Good to have them in some places.	4/16/2021 3:57 PM
16	Adding extra lights would be nice.	4/16/2021 3:47 PM
17	The traffic flow is great but some people still are not sure about what a yield sign represents so extended traffic classes maybe added to there traffic ticket if they get one	4/16/2021 2:28 PM
18	The roundabout is fantastic!!	4/16/2021 2:03 PM
19	I think the roundabout has made it a much safer intersection to travel thru. I dreaded having to use that intersection in the past, but I feel much safer traveling thru there now. Thank you!!	4/16/2021 2:02 PM
20	The roundabout does make it easier to turn left from Unionville Indian Trail Road at the school (so effectively coming from Walmart east) ... but that is the only real change, all the other directions honestly are unaffected and "hindered" now due to the roundabout. In my three years living in Indian Trail, I never saw an accident at that intersection; I don't feel like the roundabout was needed at all, and the construction (especially during COVID) was far too long and a major hassle for all of us living east of it.	4/16/2021 2:02 PM
21	I'm on the fence about the roundabouts. I theory it seems like a good thing, but no one seems to know or follow the rules. More public education about the traffic rules - especially as related to roundabouts is needed.	4/16/2021 1:26 PM
22	It still seems too busy for people on foot to cross. Also traffic coming from I74 headed towards secrest shortcut speed and hinder people from safely entering the circle when headed towards Walmart the road to turn right is confusing.	4/16/2021 1:18 PM
23	The round about is dangerous to me. Some people get confused	4/16/2021 1:13 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

24	The roundabout at Sardis Road was greatly needed. The new intersections on Highway 74 that require a right turn zoom have created a bigger hazard then it fixed. It takes first responders longer time to navigate through the traffic and they were totally I need it. Now people run the no turn on red lights creating a bigger traffic hazard.	4/16/2021 12:47 PM
25	It has greatly improved the intersection!	4/16/2021 12:44 PM
26	Personally, I prefer the Roundabouts to the UTurn lanes on 74. This particular Roundabout works very well.	4/16/2021 12:23 PM
27	Round about is really good and we need more in Indian trail heavy traffic areas. but it took significant amount of time, hope the turn-around time can be reduced.	4/16/2021 12:16 PM
28	Cars coming down Sardis from the 74 do not always yield and are driving at excessive speeds...	4/16/2021 11:21 AM
29	The biggest problem is the idiot drivers that refuse to read the signs and pay attention to the pavement markings. I have had numerous near misses because drivers refuse to slow down and beat other vehicles into the roundabout.	4/16/2021 11:20 AM
30	N/A	4/16/2021 9:09 AM
31	Great job	4/11/2021 9:07 PM
32	Better than a light...need one at IT Elem too!	4/11/2021 8:36 PM
33	I did see one older lady exiting out the entrance and obviously didn't understand the round about. Luckily people avoided her but certainly could have been bad.	4/11/2021 5:50 PM
34	The roundabout is great. The construction process was horrible. I live nearby. The water main was broken and we had to boil our water. They cut the power line, the cable line. They took way longer than expected. Ugh! Now that it's all done it does make traffic move alot smoother.	4/11/2021 5:42 PM
35	People are confused on how to use it and almost run into each other. I am more nervous to use it since I know people have no idea how to use it. People are constantly jumping into lanes when they realize they are not in the lane they need to be in.	4/11/2021 10:51 AM
36	People do not understand who has the right away and is very unclear there's going to be accidents	4/10/2021 7:47 PM
37	Next roundabout needs to be at poplin elementary.	4/10/2021 6:36 PM
38	Some drivers do not know that they must yield to cars already in the circle. I have nearly been hit 4 times when cars coming from 74 do not want to yield to cars headed to Secrest Shortcut road even though they are in the out side lane.	4/10/2021 12:07 PM
39	Turning left from UNionville Indian Trail Rd at this intersection used to be difficult and dangerous with the view towards Sardis Church Rd. I would avoid the intersection whenever possible. Now the flow is smooth and easy and much safer. I love the roundabout!	4/10/2021 5:46 AM
40	I understand how to use it & have no problem with it, but I've seen many people stopping when they don't need to or changing lanes in odd places. Maybe more signage would help?	4/9/2021 3:48 PM
41	More roundabout!!	4/9/2021 2:55 PM
42	The double enter lanes still seem to confuse people. I use it everyday to and from work and it has improved the flow. I just don't want to see too many round abouts in Indian Trail	4/9/2021 2:33 PM
43	I think the two lanes confuse some people, but it's been a great change. Now send out a survey about the change of not allowing right turns anymore at the super street.	4/9/2021 9:03 AM
44	the multiple time extensions it took for this thing have paid off. i love this round about. i would always cut through Lake Park because it was hard for me to see. the most dangerous part is that people coming from the direction of QT sometimes dont realize they have to stop when using the farthest lane (to continue past Sardis Church), ive almost been hit twice, but maybe i just have bad luck.	4/8/2021 11:42 PM
45	Roundabouts have so many benefits - environmentally friendly too. Keep up good work!	4/8/2021 11:26 PM
46	I don't think it's safer because people are idiots and don't understand how to use it. However, it makes it much easier to get through the intersection. I like the roundabouts!	4/8/2021 9:02 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

47	The multi lanes make it more confusing for drivers and I frequently see the lanes not used properly. With the multi lanes people often don't yield who should be yielding.	4/8/2021 8:41 PM
48	We have enough roundabouts and U-turns in this town.	4/8/2021 6:45 PM
49	I have used this intersection for 50 years. The roundabout is a welcome accomplishment. However, it has one large flaw. The pavement markings are quite confusing and will ultimately lead to accidents. This roundabout should be a single lane one.	4/8/2021 6:40 PM
50	Very dangerous at night without lighting. I dont go that way unless I have to which is almost never	4/8/2021 6:35 PM
51	This intersection is so much better now. I live in one of the neighborhoods that are very close to this roundabout and sometimes I couldn't even pull off of my street because traffic was so backed up. Ever since the roundabout I have not had to spit and wait to pull out of my old neighborhood	4/8/2021 5:36 PM
52	Left turn from Unionville is a little dangerous because people of Sardis push through if you're trying to get in right lane	4/8/2021 5:27 PM
53	From what I have seen at most all roundabouts, better reflective materials and or better lighting is needed at night.	4/8/2021 4:55 PM
54	People fly through the roundabout using both lanes. Not sure how to make this pedestrian safe. I wouldn't walk it.	4/8/2021 4:54 PM
55	LOVE LOVE LOVE it. This was a difficult left before. The roundabout has greatly improved traffic flow. I no longer have to avoid this intersection.	4/8/2021 4:51 PM
56	Not sure about the pedestrian question as I have never tried to cross either road on foot.	4/8/2021 4:44 PM
57	Need to build a roundabout at the intersection of Unionville Indian Trail Rd and Poplin Rd, by Glendalough.	4/8/2021 4:30 PM
58	I have no idea about pedestrian safety in that area as asked... it does seem to be safer than having a crossing guard direct traffic	4/8/2021 4:09 PM
59	As with anything new, there was a learning curve as some residents didn't know how to maneuver through the roundabout. It seems to be going much more smoothly now. Feels so much safer!	4/8/2021 4:00 PM
60	We need more roundabouts!! This helped so much!	4/8/2021 3:20 PM
61	Live right next to this roundabout and have been almost hit many times by cars coming from Unionville Indian Trail rd. And wanting to continue on to Unionville Indian trail rd are not yielding and almost hitting the cars that are coming around the circle and wanting to go same way.	4/8/2021 3:19 PM
62	Stop building roundabouts	4/8/2021 2:50 PM
63	Almost got hit twice because cars dont yield to car in the roundabout	4/8/2021 2:46 PM
64	Works for me!	4/8/2021 2:40 PM
65	Love the roundabouts but the 2 lanes in it cause a lot of confusion	4/8/2021 2:30 PM
66	Too close to school . It should have been moved out 100 + yards.	4/8/2021 2:24 PM
67	A lot safer than before! I hope people get used to the simple rules of using a roundabout, it seems like locals complain because it is a new system not because it can't work to reduce traffic flow.	4/8/2021 2:07 PM
68	This was a definite improvement to the intersection. If you build more maybe try to keep the build within dates stated for improvement. I t was super inconvenient that it went so long over proposed timeline	4/8/2021 1:28 PM
69	On Feb 17th, the excessive paint marks caused me to lose control of my motorcycle and suffered serious physical injury and property damage. The markings are very excessive and dangerous and should be a liability	4/8/2021 1:23 PM
70	Drivers need to stay in the correct lane when traveling through that intersection.	4/8/2021 1:08 PM
71	I have waited at this intersection for several minutes waiting for traffic to allow an opportunity	4/8/2021 1:05 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

to turn. This has lessened the wait time significantly.

72	N/a	4/8/2021 12:37 PM
73	N/a	4/8/2021 12:24 PM
74	So happy the school crossing guard is gone. She had traffic backed up every morning	4/8/2021 12:04 PM
75	I absolutely love the roundabout. It's quick, modern, and efficient. Unfortunately, too many drivers here in Indian Trail are completely uneducated about how it works, resulting in numerous traffic violations. People don't know how to yield, or they go through it the wrong way. It's kind of ridiculous.	4/8/2021 10:38 AM
76	A speed hump most definitely need to be added to the lane coming from Seacrest light forking to the right towards Walmart Bc NO ONE slows down and it looks more like a flow lane than a yield. I have almost gotten hit 4 times, my daughter had almost gotten hit 3 times. (We only didn't get hit Bc WE slammed on our brakes when we had the right of way)	4/8/2021 10:06 AM
77	You asked about future roundabouts and wanted yes/no answer. Each new roundabout would need to be considered separately based on location, traffic flow, etc.	4/8/2021 10:06 AM
78	I love roundabouts, please add more.	4/8/2021 9:04 AM
79	It makes avoiding the turnaround on 74 to go left easier	4/8/2021 8:36 AM
80	The construction timeline was really out of control. There were incredible delays for a busy road.	4/8/2021 8:28 AM
81	People do not know how you use roudabouts- they think they have the right of way and do ot yeild to others.	4/8/2021 8:01 AM
82	I feel this roundabout is very confusing and dangerous. The first time I went thru it, I even turned up the wrong way.	4/7/2021 12:36 AM
83	I feel as though a larger, single lane roundabout might have been safer. If drivers obeyed the road markings and actually yielded to oncoming traffic, this roundabout would be ideal. Unfortunately, I see multiple near accidents EVERY morning and afternoon as I work in the car rider line at Sardis Elementary. Driver's taking the first exit (in any direction) rarely yield to traffic already in the circle. Those in the circle have to slam on breaks and almost cause a chain reaction.	4/6/2021 2:28 PM
84	I don't have a child who goes to Sardis, but I work there so I go through this roundabout at least 10 times a week. It is a definite improvement over the old, oddly angled T-junction road.	4/6/2021 9:23 AM
85	When going left onto Unionville Indian Trail traffic pattern is confusing	4/6/2021 7:53 AM
86	Love the roundabout ,but would plant some flowers on it to make it pretty instead of overgrown grass	4/5/2021 10:30 PM
87	We truly enjoy this roundabout, its very easy to follow and allows for safer travel as well as eliminating the need for a teacher to get out and direct traffic in the middle of the road.	4/5/2021 8:26 PM
88	Roundabouts work.	4/5/2021 10:46 AM
89	Our area is at a deficit of drivers adherence of roadway laws and the basics of driver courtesy. The addition of traffic circles introduces one more way to highlight this deficit. Without more enforcement of roadway laws and programs to inform on safe driving (and how to safely use a traffic circle) traffic circles in our community only purpose appears to be is to slow the speeds of collisions not stop them.	4/4/2021 8:37 AM
90	The roundabout is a great improvement the main issues are drivers not understand once in the roundabout you have the right away and blow through the yeild sign. We have been almost hit 3 times.	4/3/2021 4:04 PM
91	I think the roundabout works well. I have not been in that area during morning and afternoon school activity. Hopefully the school still has the crossing guard! I have noticed that this roundabout is somewhat confusing and see people getting in the wrong lane.	4/3/2021 3:13 PM
92	It's a wonderful idea. If people would just use it the way it was intended to be used.	4/3/2021 9:47 AM
93	It seems some drivers feel they don't have to stop if they are going straight through on Sardis	4/3/2021 6:31 AM

Sardis Church Road Roundabout: Citizen Feedback Survey

	Church Rd. This should be monitored for a while.	
94	great improvement	4/3/2021 6:23 AM
95	Drivers approaching the roundabout from Sardis Church RD often do not give the right of way to cars already in the circle. Road markings are confusing on the roundabout.	4/3/2021 6:18 AM
96	I <3 this roundabout. So convenient 10/10	4/2/2021 7:15 PM
97	MAKE THEM SINGLE LANE !!!!! ALL DOUBLE LANES IS GOOD FOR IS FOR PEOPLE TO SPEED UP AND PASS.CAUSING CONFUSION ! ABSOLUTE STUPID ENGINEERING !!!	4/2/2021 4:04 PM
98	I'm 78 years old and love the round about!	4/2/2021 3:57 PM
99	The responsibility to yield should be taken out of the hands of residents. There needs to be a forced stop in front of that school because the citizens of this town are not responsible enough to yield or stop. U- turns and roundabouts are not the answer to traffic flow. Build the infrastructure to handle planned expansions. Your retrofits are hazards.	4/2/2021 3:20 PM
100	The intersection is 100% improved!!	4/2/2021 2:52 PM
101	So much easier to get thru traffic. Was Gribble Rd roundabout cancelled? It would be such a help to IT Rd traffic.	4/2/2021 1:11 PM
102	Adding reflectors and lights can significantly improve safety at night especially when it's raining.	4/2/2021 1:05 PM
103	I am not opposed to more round abouts. However, the one on Sardis church took much longer than scheduled and made it a huge hassle while it was closed. Also, some drivers do not drive safely in the circle and additional signage might be beneficial.	4/2/2021 1:00 PM
104	Like it	4/2/2021 12:39 PM
105	I live on Oakwood Lane. My main problem is turning left during high traffic times. Generally, I have to make a right and take Scott Long to cut through and make a left on Idlewild. It takes me out of my way. Sometimes I see people on the roundabout that seem confused about which lane to take. I would have preferred a stop light.	4/2/2021 12:30 PM
106	I think they are confusing and is not needed. You need to widen old Monroe road. That would be good use of taxpayer money.	4/2/2021 12:10 PM
107	Eased flow of traffic from all three directions. Safer turns on-off off Unionville Rd.	4/2/2021 10:47 AM
108	roundabouts appear to be a much safer way to get through an intersection, as opposed to stop signs and traffic lights when traffic flow is not more than could be accommodated by the roundabout	4/2/2021 10:41 AM
109	Awareness about how to use lanes properly needs to be spread.	4/2/2021 10:26 AM
110	This intersection is not only much more safe, I have only sat at this intersection for more than 15 seconds 1 time. The flow of traffic is incredibly improved.	4/2/2021 8:59 AM
111	Cost and delays in opening was my main concern	4/2/2021 8:07 AM
112	WE need more roundabouts	4/1/2021 11:48 PM
113	I believe the roundabout has improved traffic flow. Unfortunately there are drivers who don't know how to navigate it properly following rules of the road.	4/1/2021 10:16 PM
114	I'm glad a traffic coordinator for Sardis elementary doesn't have to risk his/her life now to stop cross traffic to allow the other lanes to go	4/1/2021 10:14 PM
115	The roundabout has not helped traffic it's very confusing. Old Monroe road needs to widen that would make more sense than a roundabout where there isn't a lot of traffic	4/1/2021 10:00 PM
116	I LOVE roundabouts. All the traffic lights intersections in the world should be transformed into roundabouts... or at least ALL the ones Indian Trail.	4/1/2021 10:00 PM
117	NTY	4/1/2021 9:35 PM
118	The roundabout is a great improvement over the dangerous intersection it replaced. I'm thankful that the town opted for the roundabout over traffic lights.	4/1/2021 9:34 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

119	A traffic light would have been fine. Drivers are not aware of pedestrians because it's a flawed design.	4/1/2021 9:20 PM
120	I like the roundabout and feel it has helped improve traffic flow. However, I think the double lane (turn lane) is confusing for most drivers and it would be better if it was a single lane.	4/1/2021 9:17 PM
121	It tray to long to put in and I wish people knew how to drive in it better. I don't really have a complaint about the circle other than it might could use some lights at night	4/1/2021 8:22 PM
122	Thank you for making that intersection safer!	4/1/2021 8:18 PM
123	It saves me time on my commute now that it's open. My children used to go to kinder care...then I would go on to work from there.	4/1/2021 8:17 PM
124	The entrance coming from the school parking lot should never have been installed. It is way too tight on such a small circle.	4/1/2021 7:53 PM
125	The traffic coming from Secrest Shortcut and the traffic coming from Hwy 74 come into the intersection too fast. There needs to be speed humps (bumps) installed before the roundabout to reduce the traffic speed.	4/1/2021 7:47 PM
126	I am very impressed with this roundabout and it was long overdue. Significantly added to better safer traffic flow. Great concept and hopefully we will see more. THANK YOU.	4/1/2021 7:26 PM
127	I spent several years living in Europe. With that said, I'm very accustomed to roundabouts. Traffic wise, this is a huge improvement to the old intersection. My biggest concern is pedestrians. The crosswalks are simply too close to entrance/exit of the roundabout. Placing the crosswalk further from the center circle shouldn't have made any cost difference but would have tremendously improved safety especially at night when crossing. They are so close to the center now that most drivers are paying more attention to navigating the roundabout lanes and exits than they are to the cross walk. With the amount of new construction in the area it's almost guaranteed that more pedestrians will begin to use this crosswalk over time and I have heavy concerns for safety.	4/1/2021 6:45 PM
128	Very well done and a great improvement to traffic flow, particularly the separate right lane adjacent to the church.	4/1/2021 6:37 PM
129	I was never a proponent of a roundabout until they put the one in Idlewild and NC51. After having traveled through that for several weeks I realized it was a very efficient change and I see many more intersections that could utilize this feature.	4/1/2021 6:35 PM
130	Drivers do not stay in their lanes and make last minute changes. I live on Unionville Indian trail rd. Speed limit is 45 but very few people obey that. I have come close to these drivers speeding and changing lanes without looking!	4/1/2021 6:18 PM
131	Right of way concerns	4/1/2021 6:14 PM
132	It's so much nicer thank you! I will say that the people who refuse to use it correctly if the worst part. I've almost been t-boned there 3 times because of people just going instead of looking left and yielding	4/1/2021 6:13 PM
133	The round about is very successful. I used to avoid the intersection completely, but that is no longer the case. The only downside is that it took an extremely long time to complete	4/1/2021 5:24 PM
134	traffic moves at a quicker pace. Much safer than previous yield sign	4/1/2021 5:14 PM
135	Traffic flows much better. I think roundabouts are good ideas at intersections that get really backed up during high traffic times.	4/1/2021 5:09 PM
136	People do not use the lanes correctly. I'm surprised there have not been a number of accidents.	4/1/2021 4:04 PM
137	We need more roundabouts. Especially at Poplin and Unionville Indian Trail	4/1/2021 3:46 PM
138	When my firstborn started kindergarten at Sardis Elementary, I wrote a letter to IT Town Council requesting sidewalks and a crosswalk so we could walk/bike to school safely. I was promised sidewalks were coming. My son is now in his first year of college and the Roundabout was only completed six months ago! Drivers need to realize it is not a speedway and it is dangerous when entering East-bound from Unionville-Indian Trail Rd., as one has to cut over two lanes to the right to continue East. Cars coming in from Sardis Church Rd., pause	4/1/2021 3:42 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

briefly but on more than one occasion, have continued almost hitting from behind because they don't realize this. Same thing coming in from Sardis-Church Rd., Eastbound to wrap around to go West onto Unionville-IT Rd., drivers approaching Westbound are hesitant to yield and I've had to slam on my brakes on more than one occasion.

139	More roundabouts please! Especially on Potter and Pleasant Plains	4/1/2021 3:41 PM
140	People need to remember not to stop in the middle of the roundabout. And people need to remember to yield and slow down when approaching. This is the major issue. With each new and different design it seems as though people have no idea how to use them. I know it is user error but if we can try to keep the designs similar it may help improve.	4/1/2021 3:00 PM
141	Easy access	4/1/2021 2:20 PM
142	The only negative I have is that some people don't yield to other cars already in the roundabout. Guess they don't know what yields means. Maybe the signs should of been stop signs instead	4/1/2021 2:05 PM
143	It works great and it would be better if people learned how the yield signs work. Over all i think it is great.	4/1/2021 1:47 PM
144	People need to learn how to use it the correct way, if they are coming down Sardis and want to go straight to 74 stay out of the inside lane. That's just one example, there a lot of other things that they are doing that can be dangerous. I drive by here everyday and see a lot of things they are doing wrong. Over all it is making things go smoother.	4/1/2021 1:38 PM
145	It looks so much better than before.	4/1/2021 1:32 PM
146	I think that the traffic moves alot faster. We don't have to wait anymore like we use to . I love the change.	4/1/2021 1:31 PM
147	All the changes in I.T. have caused nothing but congestion and accidents. this round about is just as bad. I almost wrecked there yesterday.	4/1/2021 1:22 PM
148	Roundabouts save lives.	4/1/2021 1:12 PM
149	I have seen multiple times, people driving in from the North side of the roundabout (heading towards Sardis Baptist Church) they don't stop and yield. Very dangerous. Also, people are getting confused about which lane to go into when entering from the West side (near daycare center), then driving around to either go straight or curve left) I just have to use caution and assume people aren't sure. A big time improvement however!	4/1/2021 12:58 PM
150	Much easier and quicker	4/1/2021 12:47 PM
151	First time I used circle it was dark outside and difficult to see wheet go. The extreme length of time road closed during construction was a major inconvenience.	4/1/2021 12:43 PM
152	I love it! I feel so much safer. I hated timing a left turn in rush hour traffic at that intersection. Thank you!	4/1/2021 12:40 PM
153	Really nice roundabout, quality work! Thank you	4/1/2021 12:34 PM
154	I live on Oakwood lane and absolutely love the round about. The traffic lady from the school is no longer there, so that alone improved traffic. Overall the roundabout has been a great improvement. You can easily get where you want to go and aren't stuck sitting forever trying to make a turn anymore	4/1/2021 12:26 PM
155	I would like to see more roundabouts at busy/congested intersections. The one in Mint Hill at 51/Idlewild seems to work pretty well.	4/1/2021 12:24 PM
156	ROUNABOUTS SUCK ROYALLY!!!- CREATED MORE ACCIDENTS & \$\$\$ FOR AUTO BODY SHOPS	4/1/2021 12:20 PM
157	Great Job. This intersection is much easier to get through and traffic does not back up especially when you need to go to the left of that intersection. Before the charge it was very dangerous to navigate it safely. Thanks again	4/1/2021 12:15 PM
158	I think a stoplight would have been much more sufficient. The roundabout is dangerous since drivers do not know how to use it.	4/1/2021 12:06 PM
159	I used to drive miles out of my way to avoid this intersection. The roundabout has been a great	4/1/2021 12:06 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

	addition and I frequent the area often now.	
160	The roundabout is a significant improvement from the previous intersection. Traffic flows more smoothly now, and I'm glad that difficult right turn is gone.	4/1/2021 12:00 PM
161	People do not use the lanes correctly, do not yield and they often cut over in front of cars to cut across to an exit on the roundabout. I have almost been hit there multiple times. Also people drive way to fast for pedestrians to safely cross the roads there.	4/1/2021 11:57 AM
162	People do not know how to use these crop circles. No courtesy what so ever, and definitely not safer. Signal light would probably been the best for it. Seen multiple near misses with vehicles and pedestrians.	4/1/2021 11:52 AM
163	My son whom had an accident right at this location a year ago which totaled his car, I see major improvements. It keeps the traffic flow from just pulling out whenever they deem ready to go. ☐	4/1/2021 11:47 AM
164	Traffic flow is a lot smoother and safer.	4/1/2021 11:33 AM
165	It's a great improvement to the intersection and a better option to a new light as traffic smoothly flows without frequent delays from a light. I would add that more education on how to properly use right of way in traffic circles may be needed (many times people have entered circle without yielding to in-circle traffic) and better signage for roads and exits	4/1/2021 11:26 AM
166	I answered no to the question about pedestrians, but I don't really know. In the future, I think you would get more accurate results to your survey if "yes" or "no" were not the only options. Consider adding "not applicable" and "unsure".	4/1/2021 11:16 AM
167	Many drivers do not stop and wait for others which creates a hazard.	4/1/2021 11:11 AM
168	Need to provide information to the public as to how to navigate the roundabout. People not knowing how to use them are dangerous.	4/1/2021 11:08 AM
169	Thank you so much! This intersection is so much safer and easier to get through now!	4/1/2021 11:02 AM
170	A vast improvement. Thank you!! One thing that is desperately needed at all roundabouts in IT. They all MUST have ample street lighting. On dark nights, in rain, etc. roundabouts are very dangerous because the car headlights never point in the direction of travel so you are driving blind. Please, please help with this. Thank you!!!	4/1/2021 10:56 AM
171	Add landscaping in the middle.	4/1/2021 10:49 AM
172	I think there should have been just a light put in there and it would have been fine. Not many people understand how that roundabout works. It took me a few times going through to figure it out.	4/1/2021 10:48 AM
173	I've witnessed many near misses and I have recently been run off the rotary into the grass by Sardis due to people not understanding how it works. Is there anything that can be done to write ONLY into the road. People are also going both at the same time coming from union Indian trail road w. There is a serious lack of education on rotaries and it's frightening.	4/1/2021 10:45 AM
174	I feel it's very confusing with arrows pointing here and there.	4/1/2021 10:42 AM
175	Definite improvement	4/1/2021 10:32 AM
176	Works great, if only a few clueless drivers can figure it out!	4/1/2021 10:23 AM
177	I love the roundabout, especially the sidewalks and crosswalks! I want more sidewalks and crosswalks everywhere, please!	4/1/2021 10:13 AM
178	Roundabouts are great but this one took way too long to complete!	4/1/2021 9:57 AM
179	this is a great improvement.	4/1/2021 9:56 AM
180	Let's stop wasting on roundabouts and these new intersections on 74 and use the money on pot holes, LIGHTING on our streets and more police. Our population is bigger than Matthews, yet we have part time police force. Makes no sense.	4/1/2021 9:55 AM
181	I see no benefit of a roundabout. A light could have been placed at the prior intersection and it would have saved us all from the hassle of the construction. To me it's a complete waste of money of making roundabouts.	4/1/2021 9:53 AM

Sardis Church Road Roundabout: Citizen Feedback Survey

182	People drive like maniacs around that roundabout. I rarely, if ever, see people slow down at all or yield when they enter. I have seen a few near collisions, whereas with the old intersection it seemed safer. Also, I would be scared to cross as a pedestrian because cars rarely yield.	4/1/2021 9:52 AM
183	Please invest more of my taxes in making pedestrian safety and road safety improvements. More Round-a-bouts, better visibility at intersections.	4/1/2021 9:49 AM
184	More roundabouts. Less u-turns.	4/1/2021 9:47 AM
185	Overall it has improved the intersection, though I have almost been hit a couple times. People seem to get confused easily when there are two lanes. I think more public education on how to use them might be helpful.	4/1/2021 9:45 AM
186	Love that there is no more traffic jam blocking Arbor Glen Community. Must faster commute to get to 74. The dangerous right turn is no longer there! Thank you	4/1/2021 9:45 AM
187	The roundabout is a definite improvement over the free for all that existed before. I would have preferred a traffic light due to the fact that drivers do not yield, and change "lanes" for lack of a better term while in the roundabout. The amount of traffic in Indian Trail warrants traffic lights. The roundabouts are not a long term solution when growth and traffic rates are factored in.	4/1/2021 9:30 AM
188	Love roundabouts...I think what would be beneficial would be regular videos on the FB page on how roundabouts work to remind people. Also add a link to the Mythbusters video that shows roundabouts are more efficient to move cars!	4/1/2021 9:29 AM
189	It takes time for folks to adapt to a circle, but they vastly improve the traffic flow and are far safer. I'm in favor of more of them.	4/1/2021 9:19 AM
190	Wonderful improvement to this side of town for safety and convenience!!	4/1/2021 9:17 AM
191	This roundabout certainly improves the flow of traffic through this intersection.	4/1/2021 9:08 AM
192	Figure out a way to teach yield laws to seasoned drivers if you're going to add more roundabouts. Many don't understand.	4/1/2021 8:56 AM
193	The design is much better than others in the area and I think they help move traffic once people get used to of understand the right of way.	4/1/2021 8:34 AM
194	This intersection is much improved and is no doubt more safe than the previous design. As with all roundabouts, educating the public on the use of a roundabout and right-of-ways is important. Unfortunately, there are drivers that are not sure who has the right-of-way and which lanes are for what. Some temporary signage that states that cars approaching the roundabout must yield to cars already in the roundabout is recommended.	4/1/2021 8:20 AM
195	Folks just need to learn how to use roundabouts, to yield to other cars & definitely NOT speed up to get thru the roundabout when they see another car approaching!	4/1/2021 8:20 AM
196	I think roundabouts are great. I was glad when Matthews put one at Idlewild & Hwy 51.	4/1/2021 8:17 AM
197	Excellent improvement of traffic flow and safety at this intersection. It was well worth the wait!	4/1/2021 8:14 AM
198	The roundabout is a bit dangerous as the lanes can be confusing when entering from U-IT Road to continue left. The left lane switches to a right lane but people entering from Sardis Church Road don't often look before entering. Also some people don't move to the right lane and then cut over two lanes to exit the roundabout. The design could be better.	4/1/2021 8:12 AM
199	Can't fix stupid drivers that fail to pay attention to the road signs. However, with that said, we no longer dread traveling through that portion of Sardis Church rd.	4/1/2021 8:10 AM
200	The round- about is fine, the people who drive on the round-about is the issue. Many people don't understand the concept of a yield sign, and continue through the circle at a "normal speed"	4/1/2021 6:17 AM
201	Roundabout is a great solution for busy intersection.	3/31/2021 9:46 PM
202	Makes traffic flow easier	3/31/2021 7:02 PM
203	I work at Sardis Elementary. It does seem to be less congested in the morning during student arrival and in the afternoon after dismissal. It is easier for me to arrive at Sardis in the morning and leave as well. Traffic has tremendously decreased from what I have seen.	3/31/2021 2:03 PM

Sardis Church Road Roundabout: Citizen Feedback Survey

204	I have been pleasantly surprised by the effectiveness, efficiency, and safety provided by the roundabout.	3/31/2021 1:50 PM
205	I don't have children, but I am a teacher at Sardis Elementary. This round about has made a world of difference in traffic, safety, and congestion in the area. It was a wonderful improvement to our area.	3/31/2021 1:48 PM
206	I love the roundabout, I feel like I never have to wait. My only concern is people who don't know how the roundabout works but even with that IT"S so much better!! Thank you!	3/31/2021 1:42 PM
207	People still drive way to fast on this road.	3/31/2021 1:39 PM
208	none	3/31/2021 1:39 PM
209	I feel like the roudabout is confusing, and does not help with congestion. The busy time at the beginning of school and after school was relieved by a traffic director and that was sufficient.	3/31/2021 1:35 PM
210	I think it has been a much needed improvement for safety and traffic flow!! The only thing that I have seen so far as an issue is that some drivers do not understand how the lanes (inner and outer) work. This can become a safety concern when drivers try to cross lanes mid turns.	3/31/2021 1:35 PM
211	I am a teacher at Sardis and I think the roundabout has made arrival and dismissal safer.	3/31/2021 1:34 PM
212	It is not that I am opposed to roundabouts, but the layout and double lanes	3/31/2021 1:33 PM
213	There needed to be LARGER or flashier signs for the south-bound traffic on Sardis Church Rd reminding them that they HAVE TO YIELD to people in the circle... I have almost been t-boned TWICE- once by a school bus and once by a car- because they didn't understand how it worked. A think more attention to a BIGGER/FLASHIER sign with new traffic patterns on it would have helped.	3/31/2021 1:33 PM
214	The intersection improvements have helped with traffic flow at Sardis, with much more efficient movement of cars before and after school. The sidewalks also make it much safer for pedestrian traffic as well.	3/31/2021 1:29 PM
